

1. Record Nr.	UNISA996279855603316
Titolo	ANSI/ IEEE Std 730-1981 (Revision of ANSI/ IEEE Std 730) : IEEE Standard for Software Quality Assurance Plans / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1981
ISBN	1-5044-0427-0
Descrizione fisica	1 online resource
Disciplina	658.562
Soggetti	Quality assurance
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The purpose of this standard is to provide uniform, minimum acceptable requirements for preparation and content of Software Quality Assurance Plans (SQAP). This standard applies to the development and maintenance of critical software; for example, where failure could impact safety or cause large financial or social losses. For non-critical software, or for software already developed, a subset of the requirements of this standard may be applied. The existence of this standard should not be construed to prohibit additional content in a Software Quality Assurance Plan. An assessment should be made for the specific software product item to assure adequacy of coverage. Where this standard is invoked for a project engaged in producing several software items, the applicability of the standard should be specified for each of the software product items encompassed by the project.</p>
