

1. Record Nr.	UNISA996279868003316
Titolo	ANSI N323AB-2013 (Revision and Redesignation of ANSI N323A-1997 and ANSI N323B-2002) : American National Standard for Radiation Protection Instrumentation Test and Calibration, Portable Survey Instruments // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, NY, USA : , : IEEE, , 2014
ISBN	0-7381-9118-3
Descrizione fisica	1 online resource (ix, 30 pages) : illustrations
Collana	IEEE Std
Disciplina	539.752
Soggetti	Radioactivity - Measurement Surveying - Instruments
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Testing, calibration, and calibration frequency requirements for portable radiation detectors used to directly measure alpha, beta, photon, and neutron radiation are defined. Also defined are the calibration and testing requirements for alpha and beta-gamma measurements of surface contamination levels using portable radiation detectors. Portable radiation detectors may be battery or line powered.
