

1. Record Nr.	UNISA996279878703316
Titolo	ANSI/IEEE Std 1001-1988 : IEEE Guide for Interfacing Dispersed Storage and Generation Facilities With Electric Utility Systems // IEEE
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1989
ISBN	0-7381-4134-8
Descrizione fisica	1 online resource (101 pages)
Disciplina	621.319
Soggetti	Electric power transmission Electric power transmission - Standards Electric utilities - Equipment and supplies Electric power systems - Standards Electric generators
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The purpose of this IEEE guide is to alert electric utilities, manufacturers of dispersed storage and generation (DSG) equipment, consultants, contractors and DSG owners and operators to the engineering concerns inherent in operating dispersed generators in parallel with utility systems; to describe proper interface construction techniques and operating procedures for those generators; to emphasise safety aspects involved; and to call attention to possible DSG impact on utility customers.
