

1. Record Nr.	UNISA996279912603316
Titolo	2015 IEEE International Conference on Communication Problem Solving (ICCP) // Institute of Electrical and Electronics Engineers Staff
Pubbl/distr/stampa	Piscataway : , : IEEE, , 2015
ISBN	1-4673-6544-0
Descrizione fisica	1 online resource
Disciplina	511.8
Soggetti	Problem solving - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	RF Circuit and Subsystem Small Antenna, Planar reflect antenna array, MCM, LCP LTCC technologies, System on package, Subsystem integration, Passive device circuits design and modeling, Active device circuits design and modeling, RFIC & MMIC based on GaN SiGe RFCMOS, PLL technologies, High speed high bits ADC DAC, broadband high power amplifier, etc Signal Process Technology Channel modeling, Signal Processing technologies for link access Communication Systems, Signal Processing for Radar and sensor Systems, Compressive Sensing, Sparse Signal Processing, Waveform Diversity and Design, Adaptive Antennas and Beamforming, MIMO or SAR imaging signal processing, 2D 3D image video signal processing Networks Ad hoc, Body Area, Sensor and Mesh Networks, Wireless Multimedia Networks, Internet of Things, Network Measurement and Monitoring Techniques, Multimode Wireless Networks, Next generation Networking Architectures, Network Design.
