1. Record Nr.   UNISA996280424303316

   Titolo   IEEE Std 802-2014 (Revision to IEEE Std 802-2001) : IEEE Standard for
                        Local and Metropolitan Area Networks: Overview and Architecture / /
                        Institute of Electrical and Electronics Engineers

   Pubbl/distr/stampa   New York : , : IEEE, , 2014

   ISBN   0-7381-9219-8

   Descrizione fisica   1 online resource (xv, 56 pages) : illustrations

   Disciplina   004.68

   Soggetti   Local area networks (Computer networks)

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Sommario/riassunto   This standard provides an overview to the family of IEEE 802 standards.
                        It describes the reference models for the IEEE 802 standards and
                        explains the relationship of these standards to the higher layer
                        protocols; it provides a standard for the structure of IEEE 802 MAC
                        addresses; it provides a standard for identification of public, private,
                        prototype, and standard protocols; it specifies an object identifier
                        hierarchy used within IEEE 802 for uniform allocation of object
                        identifiers used in IEEE 802 standards; and it specifies a method for
                        higher layer protocol identification.
