

1. Record Nr.	UNISA996280539403316
Titolo	ISO/IEC/IEEE 24748-1:2018(E) : ISO/IEC/IEEE International Standard - Systems and software engineering - Life cycle management - Part 1 : Guidelines for life cycle management / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York : , : IEEE, , 2018
ISBN	1-5044-5208-9
Descrizione fisica	1 online resource (82 pages)
Disciplina	005.1
Soggetti	Software engineering Product life cycle
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The purpose of this document is to facilitate the joint usage of the process content of the latest revisions of both ISO/IEC/IEEE 15288 and ISO/IEC/IEEE 12207, by providing unified and consolidated guidance on life cycle management of systems and software. This is to help ensure consistency in system concepts and life cycle concepts, models, stages, processes, process application, key points of view, adaptation and use in various domains as the two International Standards are used in combination. That will in turn help a project team design a life cycle model for managing the progress of their project. Hence, ISO/IEC/IEEE 15288 and ISO/IEC/IEEE 12207 are the documents that apply the concepts found in this document to specific processes.</p>
