

1. Record Nr.	UNISA996280665003316
Titolo	IEEE No 77-1965 : IEEE Recommended Practice for Electric Installations on Textile Machinery // IEEE
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1965
ISBN	1-5044-0441-6
Descrizione fisica	1 online resource
Disciplina	658.3124
Soggetti	Employees - Training of Machinery industry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The following topics are dealt with: electric installations; textile machinery; machine wiring; motor-control equipment; conductors; electric stop-motion equipment; direct-current equipment; grounded circuits; equipment grounding; junction boxes; raceways; conduits; overcurrent; control circuits; undervoltage protection; equipment identification.
