

1. Record Nr.	UNISA996280681803316
Titolo	IEEE Std 2000.1-1998 : IEEE Standard for Information Technology, Standard for Year 2000 Terminology // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, New Jersey : , : IEEE, , 1998
ISBN	0-7381-0345-4
Descrizione fisica	1 online resource (16 pages)
Disciplina	004.62
Soggetti	Information technology - Standards Technological innovations - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This standard provides concepts, definitions, remediation techniques, and other supporting terms fundamental to a lexicon for Year 2000 terminology. It addresses key topics pertinent to the development of resolutions to the Year 2000 problem. The core of this standard is the definitions section which contains the definition for Year 2000 compliance. Two critical aspects of this definition are: first, the acknowledgment of the significance of documentation associated with technology, and, second, the recognition that compliance is a two-way street, i.e. the proper exchange of data is paramount for technology to remain compliant.
