   Livello bibliografico   Monografia

   Sommario/riassunto Abstract: This standard is for a Protection Profile for hardcopy devices
                       in a restrictive commercial information processing environment in
                       which a relatively high level of document security, operational
                       accountability, and information assurance are required. Typical
                       information processed in this environment is trade secret, mission
                       critical, or subject to legal and regulatory considerations such as for
                       privacy or governance. This environment is not intended to support
                       life-critical or national security applications. This environment will be
                       known as Operational Environment A. Keywords: all-in-one, Common
                       Criteria, copier, disk overwrite, document, document server, document
                       storage and retrieval, facsimile, fax, hardcopy, ISO/IEC 15408,
                       multifunction device (MFD), multifunction product (MFP), network,
                       network interface, nonvolatile storage, office, paper, printer, Protection
                       Profile, residual data, scanner, security target, shared communications
                       medium, temporary data.
