

1. Record Nr.	UNISA996280687803316
Titolo	IEEE Std 183-1958 : IEEE Technical Committee Report: Methods for Testing Radiotelegraph Transmitters (Below 50 MC) // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, NY : , : IEEE, , 1958
ISBN	0-7381-4348-0
Descrizione fisica	1 online resource
Disciplina	621.3841
Soggetti	Radio - Transmitters and transmission
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The standardisation of methods of testing radio telegraph transmitters is considered. The classification of tests to be performed is discussed, and specific methods of measuring power output, spurious transmitter output, frequency stability, carrier hum, and keying characteristics are given.
