

1. Record Nr.	UNISA996280693903316
Titolo	IEEE Std 268-1976 (Supersedes ASTM E380-1974 IEEE Std 268-1973 IEEE Std 322-1971) : IEEE/ASTM Standard Metric Practice / / IEEE
Pubbl/distr/stampa	Piscataway, NJ : , : IEEE, , 1976
ISBN	1-5044-0240-5
Descrizione fisica	1 online resource (48 pages)
Collana	IEEE Std ; ; 268-1976
Disciplina	389
Soggetti	Metric system Weights and measures - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This standard describes the International System of Units (SI), the modern version of the metric system. It includes listings of the base units, supplementary units, and units derived therefrom. Guidance is provided on application of the SI prefixes, other units in use with SI (including units accepted for limited use and units to be abandoned), and unit selection. A section on style and usage covers the writing of unit symbols and names, pronunciation, and recommendations for numbers. Extensive guidance is provided on conversion and rounding including tables for conversion of linear dimensions, also pressure and stress, along with a very extensive table of conversion factors. An appendix provides background information in the development of SI.
