

1. Record Nr.	UNISA996280735003316
Titolo	IEEE Guide for Aeolian Vibration Field Measurement of Overhead Conductors // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, NY : , : IEEE, , 2006
ISBN	0-7381-5309-5
Descrizione fisica	1 online resource (vii, 25 pages) : illustrations
Disciplina	537.62
Soggetti	Electric conductors Overhead electric lines Overhead electric lines - Vibration Vibration - Measurement
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Current practices related to field measurements of aeolian vibration of overhead conductors are covered in this guide.
