

1. Record Nr.	UNISA996280735403316
Titolo	IEEE Std 1313-1993: : IEEE Standard for Power Systems - Insulation Coordination // IEEE
Pubbl/distr/stampa	New York, USA : , : IEEE, , 1992
ISBN	1-55937-405-5
Descrizione fisica	1 online resource (21 pages)
Disciplina	621.31937
Soggetti	Electrical engineering - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Equipment for three-phase alternating-current (ac) systems having a system voltage above 1 kV nominal is discussed. Except for some definitions, this standard includes only phase-to-ground insulation. The object of this standard is to guide the preparation of specifications for insulation of the various items of equipment in a given installation.
