| Titolo | IEEE Std 1390.3-1999 : IEEE standard for automatic meter reading via telephone-- : network to utility controller. // Institute of Electrical and Electronics Engineers |
| Pubbl/distr/stampa | New York, N.Y. : , : IEEE, , 1999 |
| ISBN | 0-7381-1645-9 |
| Descrizione fisica | 1 online resource (v, 27 pages) : illustrations |
| Collana | Institute of Electrical and Electronics Engineers |
| Disciplina | 628.144 |
| Soggetti | Water-meters |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di bibliografia | Includes bibliographical references. |
| Sommario/riassunto | The telephone network interface to a utility controller operating under the utility telemetry service architecture is described. The interface is described in terms of a utility meter reading application but any enhanced service provider communication can be transported. Telemetry calls may be initiated by either the utility/enhanced service provider (outbound) or the telemetry Interface unit (TIU)/CPE (inbound) on the end user's premise. |
