1. Record Nr. UNISA996280750403316 Titolo IEEE guide for determining the effects of high-temperature operation on conductors, connectors, and accessories // IEEE Power Engineering Society Transmission and Distribution Committee, American National Standards Institute, Institute of Electrical and Electronics Engineers, **IEEE-SA Standards Board** Pubbl/distr/stampa New York, N.Y.:,: Institute of Electrical and Electronics Engineers,, 2005 Descrizione fisica 1 online resource (v, 28 pages) Disciplina 536.57 Soggetti High temperatures Overhead electric lines - Standards Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia The purpose of this guide is to provide general recommendations for Sommario/riassunto consideration when designing new overhead transmission lines that will be operated at high temperatures. It may also evaluate existing transmission lines for operation at higher temperatures. Although this guide is intended for overhead transmission lines, most of the discussion will also be applicable to distribution lines.
