

1. Record Nr.	UNISA996280787603316
Titolo	ISO/IEC/IEEE international standard . Part 5 Keyword-driven testing : software and systems engineering -- software testing
Pubbl/distr/stampa	New York : , : IEEE, , 2016
ISBN	1-5044-0874-8
Descrizione fisica	1 online resource (90 pages)
Disciplina	005.1
Soggetti	Software engineering - Standards Systems engineering - Standards Software engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The purpose of the ISO/IEC/IEEE 29119 Software Testing standards is to define an internationally-agreed set of standards for software testing that can be used by any organization when performing any form of software testing. ISO/IEC/IEEE 29119-5 defines Keyword-Driven Testing, which is an approach to describing test cases in a modular way. This standard explains the main concepts and attributes of Keyword-Driven Testing and is applicable to all those who want to create keyword-driven test specifications, create corresponding frameworks, or build test automation based on keywords. This standard defines requirements on frameworks for Keyword-Driven Testing to.
