

1. Record Nr.	UNISA996280831203316
Titolo	AIEE No 74-1958 : IEEE Standard Test Code for Industrial Control (600 Volts or Less) // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, New Jersey : , : IEEE, , 1958
ISBN	1-5044-0429-7
Descrizione fisica	1 online resource (18 pages)
Disciplina	621.462
Soggetti	Electric motors, Direct current Electric controllers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This test code is concerned with tests on a representative sample of an industrial control device or apparatus in order to substantiate conformance of that type of device or apparatus with a recognized standard of performance. The aim is to insure that the test methods and procedures are capable of giving information which is pertinent, significant, and reproducible. No attempt is made to specify standards of acceptability for the apparatus, nor to suggest which, if any of these tests, should be made.
