

1. Record Nr.	UNISA996293350403316
Titolo	Translational pediatrics
Pubbl/distr/stampa	Hong Kong, : AME Publishing Company Hong Kong : , : AME Publishing Company, , 2012
ISSN	2224-4344
Descrizione fisica	1 online resource
Disciplina	618
Soggetti	Pediatrics - Research Translational Research, Biomedical Pediatrics Periodical Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Nota di contenuto	Fifteen years of routine childhood varicella vaccination in the United States-strong decrease in the burden of varicella disease and no negative effects on the population level thus far -- Should varicella vaccine be included in the routine immunization programme? -- Varicella vaccination programs do not seem to shift the age of disease to older age groups -- Evaluation of cerebral function in high risk term infants by using a scoring system based on aEEG -- Comparison of Doppler echocardiographic and tissue Doppler velocity data in beta-thalassaemia major with high and normal NT-proBNP levels of children in the south-east region of Turkey -- Pediatric hepatoblastoma: diagnosis and treatment -- Fanconi anemia pathway defects in inherited and sporadic cancers -- Advances in genetic studies of inherited bone marrow failure syndromes and their associated malignancies -- Neonatal rhabdomyosarcoma: an unusual presentation.
Sommario/riassunto	"It publishes articles that describe new findings in the field of translational research in pediatrics, with specific areas of interest include, but not limited to, multimodality therapy, biomarkers, imaging, biology, pathology, and technical advances related to

pediatrics."
