

1. Record Nr.	UNISA996308764203316
Titolo	Fractional dynamics / / Carlo Cattani, Hari M. Srivastava, Xiao-Jun Yang (eds.)
Pubbl/distr/stampa	Berlin : , : De Gruyter Open, , [2015] ©2015
ISBN	3-11-047071-3 3-11-047209-0
Descrizione fisica	1 online resource (392 pages) : illustrations
Disciplina	515.83
Soggetti	Fractional calculus Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Frontmatter -- Contents -- Fractional Dynamics / Cattani, Carlo / Srivastava, H. M. / Yang, Xiao-Jun -- Local Fractional Calculus on Shannon Wavelet Basis / Cattani, Carlo -- Discretely and Continuously Distributed Dynamical Systems with Fractional Nonlocality / Tarasov, Vasily E. -- Temporal Patterns in Earthquake Data-series / Lopes, António M. / Tenreiro Machado, J.A. -- An Integral Transform arising from Fractional Calculus / Asada, Akira -- Approximate Solutions to Time-fractional Models by Integral-balance Approach / Hristov, Jordan -- A Study of Sequential Fractional q-integro-difference Equations with Perturbed Anti-periodic Boundary Conditions / Ahmad, Bashir / Alsaedi, Ahmed / Al-Hutami, Hana -- Fractional Diffusion Equation, Sorption and Reaction Processes on a Surface / Lenzi, M. K. / Gonçalves, G. / Leitões, D. P. / Lenzi, E. K. -- Fractional Order Models for Electrochemical Devices / Sabatier, Jocelyn -- Results for an Electrolytic Cell Containing Two Groups of Ions: PNP - Model and Fractional Approach / Lenzi, M. K. / Gonçalves, G. / Silva, F. R. G. B. / Zola, R. S. / Ribeiro, H. V. / Rossato, R. / Lenzi, E. K. -- Application of Fractional Calculus to Epidemiology / Atangana, Abdon -- On Numerical Methods for Fractional Differential Equation on a Semi-infinite Interval / Bhrawy, A.H. / Taha, T.M. / Abdelkawy, M.A. / Hafez, R.M. -- From Leibniz's Notation for Derivative to the Fractal Derivative,

Fractional Derivative and Application in Mongolian Yurt / Liu, Hong-Yan / He, Ji-Huan -- Cantor-type spherical-coordinate Method for Differential Equations within Local Fractional Derivatives / Segi Rahmat, Mohamad Rafi / Baleanu, Dumitru / Yang, Xiao-Jun -- Approximate Methods for Local Fractional Differential Equations / Srivastava, H. M. / Tenreiro Machado, J. A. / Yang, Xiao-Jun -- Numerical Solutions for ODEs with Local Fractional Derivative / Yang, Xiao-Jun / Baleanu, Dumitru / Tenreiro Machado, J. A. -- Local Fractional Calculus Application to Differential Equations Arising in Fractal Heat Transfer / Yang, Xiao-Jun / Cattani, Carlo / Xie, Gongnan -- Local Fractional Laplace Decomposition Method for Solving Linear Partial Differential Equations with Local Fractional Derivative / Jafari, Hossein / Jassim, Hassan Kamil / Tauseef Mohyud-Din, Syed -- Calculus on Fractals / Golmankhaneh, Alireza K. / Baleanu, D. -- Solutions of Nonlinear Fractional Differential Equations Systems through an Implementation of the Variational Iteration Method / Mehmet Baskonus, Haci / Bin Muhammad Belgacem, Fethi / Bulut, Hasan -- Fractional-order Nonlinear Systems: Chaotic Dynamics, Numerical Simulation and Circuits Design / Mekkaoui, Toufik / Hammouch, Zakia / Belgacem, Fethi B.M. / El Abbassi, Ahmed -- Fractional Derivative of the Riemann Zeta Function / Guariglia, E. -- A Treatment of Generalized Fractional Differential Equations: Sumudu Transform Series Expansion Solutions, and Applications / Bin Muhammad Belgacem, Fethi / Gulati, Vartika / Goswami, Pranay / Aljoujee, Abdullah

Sommario/riassunto

The book is devoted to recent developments in the theory of fractional calculus and its applications. Particular attention is paid to the applicability of this currently popular research field in various branches of pure and applied mathematics. In particular, the book focuses on the more recent results in mathematical physics, engineering applications, theoretical and applied physics as quantum mechanics, signal analysis, and in those relevant research fields where nonlinear dynamics occurs and several tools of nonlinear analysis are required. Dynamical processes and dynamical systems of fractional order attract researchers from many areas of sciences and technologies, ranging from mathematics and physics to computer science.
