Joban Themes in Philip Roth's Nemesis / Batnitzky, Leora -- Notes on Contributors
Sommario/riassunto	The Book of Job has held a central role in defining the project of modernity from the age of Enlightenment until today. The Book of Job: Aesthetics, Ethics and Hermeneutics offers new perspectives on the ways in which Job's response to disaster has become an aesthetic and ethical touchstone for modern reflections on catastrophic events. This volume begins with an exploration of questions such as the tragic and ironic bent of the Book of Job, Job as mourner, and the Joban body in

pain, and ends with a consideration of Joban works by notable writers - from Melville and Kafka, through Joseph Roth, Zach, Levin, and Philip Roth.
