More than 20 years of gender mainstreaming have demonstrated that equality governance with and through impact assessment is an intersectional and still evolving process. Arn T. Sauer's study examines the instruments of gendered policy analysis and the conditions under which they are being used by the Canadian federal government and the European Commission. Interviews with experts

from public administration and instrument designers as well as

document analyses reveal benefits and challenges and show that the success of equality governance depends upon whether knowledge about gendered policy and appropriate administrative practices are embedded, embodied and entrenched in public administration. »Der Band ist ein wichtiger Beitrag zur feministischen Governance-Forschung, gerade aufgrund der Bildung von Analysekriterien und Typologien zur Bewertung von politischem Handeln in Institutionen. « Regina Frey, Femina Politica, 2 (2019)
