Sommario/riassunto	Two previous RAND volumes addressed the roles of the United States and the United Nations in nation-building, defined as the use of armed force in the aftermath of a conflict to promote a durable peace and representative government. This volume presents six case studies of recent European-led nation-building missions: Albania, Sierra Leone, Macedonia, Cote d'Ivoire, the Democratic Republic of the Congo, and Bosnia. It also reviews the Australian assistance mission to the Solomon Islands.
