Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 350-364) and index.
Nota di contenuto	This gene is your gene : fencing off the folk and genetic commons -- Copyright criminals : this is a sampling sport -- Illegal art : when art gets in trouble with the law, and art gives the law trouble back -- Culture, Inc. : our hyper-referential, branded culture -- Our privatized world : selling off the public square, culture, education, our democracy, and everything else -- The digital future : and the analog past.
Sommario/riassunto	A look at the issue of intellectual property law and its repercussions for American culture and our everyday lives explains how the trend toward privatization of such items as public space, English language, and genes causes a clash between economic values and the value of free speech, creativity, and shared resources.
