

1. Record Nr.	UNISA996320720503316
Titolo	Current trends in arithmetical algebraic geometry : proceedings of the AMS-IMS-SIAM Joint Summer Research Conference, held August 18-24, 1985, with support from the National Science Foundation / / Kenneth A. Ribet, editor
Pubbl/distr/stampa	Providence, Rhode Island : , : American Mathematical Society, , [1987] ©1987
ISBN	0-8218-3385-5
Descrizione fisica	1 online resource (311 p.)
Collana	Contemporary mathematics, , 0271-4132 ; ; 67 , 0271-4132
Disciplina	516.3/5
Soggetti	Arithmetical algebraic geometry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	English and French. "AMS-IMS-SIAM Joint Summer Research Conference in the Mathematical Sciences on Current Trends in Arithmetical Algebraic Geometry was held at Humboldt State University"--T.p. verso.
Nota di bibliografia	Includes bibliographies.
Nota di contenuto	Contents -- Introduction -- Height pairing between algebraic cycles -- Introduction -- 1. Height pairing in geometric situation (global construction) -- 2. Local indexes over non-archimedean places -- 3. Local indexes over C or R -- 4. Height pairing over number fields -- 5. Some conjectures and problems -- Survey of Drinfel'd modules -- Introduction -- Chapter 1. Algebraic theory of Drinfel'd modules -- 1. Endomorphisms of the additive group -- 2. Definition of Drinfel'd module over a field -- 3. Division points -- 4. Isogenies -- 5. Drinfel'd modules over a base scheme -- 6. Level structure and the moduli space -- Chapter 2. Analytic theory of the affine modules of Drinfel'd -- 1. Exponential function associated to a lattice -- 2. Characterization of Drinfel'd modules over $\mathbb{C}_{\ell}$ -- 3. Discrete modules in a vector space over a local field -- 4. Moduli spaces as homogeneous spaces (local theory) -- 5. Moduli spaces as homogeneous spaces (adelic theory) -- Chapter 3. The rigid analytic moduli space -- 1. Norms on vector spaces over a local field -- 2. The building for $PGL(V)$ over a local field -- 3. Metric on the building -- 4. The mapping from the $p$ -adic symmetric space to the building -- 5.

Filtration of the I-dimensional p-adic symmetric space -- Chapter 4.  
Cohomology of the moduli space -- 1. Generalities of the cohomology  
of rigid analytic spaces -- 2. Cohomology of  $I^*2$  (C17E --) -- 3. A  
simple topological model -- 4. Cohomology of the moduli space with  
fixed level structure -- Chapter 5. Applications to relations between  
automorphic forms and Galois representations -- 8. Integrale d'un  
produit de premieres classes de Chern. cas general (esquisse) -- 9. IC2  
et isomorphisme de Riemann-Roch -- 10. Metriser IC2 -- 11. Le  
theoreme -- p-adic periods and p-adic etale cohomology -- An  
introduction to higher dimensional Arakelov theory -- Diophantine  
problems in complex hyperbolic analysis -- Cubic exponential sums  
and Galois representations -- Lettre -- J-F. Mestre -- A survey of  
the theory of height functions -- 1. Weil heights -- 2. Metrized line  
bundles -- 3. The degree of a metrized line bundle -- 4. The modular  
height of an abelian variety -- 5. Canonical heights on abelian varieties  
-- 6. The difference of the Weil and canonical heights -- 7. Lower  
bounds for the canonical height -- 8. Specialization theorems --  
Presentation De La Theorie D'Araicelov.

---
