

1. Record Nr.	UNISA996321025403316
Titolo	Acta Iuris Stetinensis
Pubbl/distr/stampa	Szczecin : , : Wydawnictwo Naukowe Uniwersytetu Szczeciskiego
ISSN	2545-3181
Descrizione fisica	1 online resource
Collana	Zeszyty Naukowe / Uniwersytet Szczeciski, , 1640-6818
Soggetti	Law - Poland Law reviews - Poland Law Law reviews Electronic journals. Periodicals. Poland
Lingua di pubblicazione	Polacco
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed

2. Record Nr.	UNINA9910557771103321
Autore	Gonzalez Manuela
Titolo	Advanced Battery Technologies: New Applications and Management Systems
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 online resource (190 p.)
Soggetti	Information technology industries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>In recent years, lithium-ion batteries (LIBs) have been increasingly contributing to the development of novel engineering systems with energy storage requirements. LIBs are playing an essential role in our society, as they are being used in a wide variety of applications, ranging from consumer electronics, electric mobility, renewable energy storage, biomedical applications, or aerospace systems. Despite the remarkable achievements and applicability of LIBs, there are several features within this technology that require further research and improvements. In this book, a collection of 10 original research papers addresses some of those key features, including: battery testing methodologies, state of charge and state of health monitoring, and system-level power electronics applications. One key aspect to emphasize when it comes to this book is the multidisciplinary nature of the selected papers. The presented research was developed at university departments, institutes and organizations of different disciplines, including Electrical Engineering, Control Engineering, Computer Science or Material Science, to name a few examples. The overall result is a book that represents a coherent collection of multidisciplinary works within the prominent field of LIBs.</p>
