Sommario/riassunto	Dios y el hombre is a joint publication of the Catedra Libre de Pensamiento Cristiano de la UNLP and the Seminario Mayor San José de La Plata. It seeks to be a service to culture, a contribution to the dialogue between the different university and tertiary careers and theology, between reason and faith, between the different arts and piety; an attempt to encompass all reality in order to discover the truth of the human person. We are convinced that faith is culture, that faith has much to contribute to university culture itself, that faith has a profound light that comes from the divine Logos, who is the foundation of the reasonableness of reality, and that allows us to understand it more fully.
