Sommario/riassunto

This book constitutes the refereed proceedings of the 11th
International Andrei P. Ershov Informatics Conference, PSI 2017, held in
Moscow, Russia, in June 2017. The 31 full papers presented in this
volume were carefully reviewed and selected from 57 submissions. The
papers cover various topics related to the foundations of program and
system development and analysis, programming methodology and
software engineering and information technologies.
