Sommario/riassunto	Foreign direct investment and private capital flows are highly concentrated geographically, with almost half of them reaching the top five destinations. These flows tend to evade many high-risk countries, with the exception of those directed to extractive industries. Sommario/riassunto	This is a groundbreaking study of an important and neglected topic. Between 1917 and 1921, rape was used as a strategic weapon in the genocidal anti-Jewish violence-the pogroms-that erupted in Ukraine. During this period, at least 100,000 Jews died and unknown numbers of Jewish women were raped. The book is based on the in-depth study of the scores of survivor narratives that have been all but forgotten for almost a century. It analyzes how the victimized Jewish communities experienced trauma, how they expressed it, the motives of the

perpetrators, and the part played by rape in furthering the pogroms' objectives.
