Nota di contenuto	Introduction: the "cultural democratic revolution" of Evo Morales -- The emergence of indigenous nationalism : social movements and the MAS State -- The constituent assembly : challenges to liberalism -- Wedding the nation : spectacle and political performance -- Living well? the battle for national development -- Race and racism in the new Bolivia -- From indigeneity to economic liberation -- Charagua's struggle for indigenous autonomy -- Conclusion : between politics and policing.
Sommario/riassunto	"In 2005, Bolivians elected their first indigenous president, Evo Morales. Ushering in a new "democratic cultural revolution," Morales promised to overturn neoliberalism and inaugurate a new decolonized society. In this crucial new book, Nancy Postero examines the successes and failures in the ten years since Morales's election. While the Morales government has made many changes that have positively benefited Bolivia's majority indigenous population, it has consolidated power and reinforced extractivist development models. In the process, indigeneity has been transformed from a site of emancipatory politics to a site of liberal nation-state building. By carefully tracing the political origins

and practices of decolonization among activists, government administrators, and ordinary citizens, Postero makes an important contribution to our understanding of the meaning and impact of Bolivia's indigenous state."--Provided by publisher.
