Nota di contenuto Hindu sectarianism: difference in unity -- "Just like Kalidasa": the making of the Smarta-Saiva community of South India -- Public philology: constructing sectarian identities in early modern South India -- The language games of Saiva: mapping text and space in public religious culture -- Conclusion: a prehistory of Hindu pluralism. "Much has been written about the historical origins of the unity of Sommario/riassunto Hinduism. Hindu difference has been read through the lens of the term "sectarianism," a concept that translates devotion as dissent, and community as a potential precursor to communalism. In Hindu Pluralism, Elaine. M. Fisher argues that it is the plurality of Hindu religious identities, and their embodiment and contestation in public space, that first reveals the emergence of Hinduism as a unified religion in south India and an integral feature of a distinctively Indic early

modernity prior to British Colonialism."--Provided by publisher.
