Sommario/riassunto	Representing the largest expansion between editions, this updated volume of Otttemiller's Index to Plays in Collections is the standard location tool for full-length plays published in collections and

anthologies in England and the United States throughout the 20th century and beyond. This new volume lists more than 3,500 new plays and 2,000 new authors, as well as birth and/or death information for hundreds of authors.
