

1. Record Nr.	UNISA996339104803316
Autore	Sniderman A.
Titolo	Fast facts [[electronic resource] ] : hyperlipidemia / / Allan Sniderman, Paul Durrington
Pubbl/distr/stampa	Abingdon, Oxford, : Health Press Ltd., 2010
ISBN	1-282-64963-9 9786612649639 1-905832-84-2
Edizione	[5th ed.]
Descrizione fisica	1 online resource (142 p.) : col. ill., col. ports
Collana	Fast facts
Altri autori (Persone)	DurringtonPaul N
Soggetti	Hyperlipidemia
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	'Fast Facts: Hyperlipidemia' provides a crisp and accurate summary of lipid disorders using clear language and illustrations. Directed at a broad range of healthcare professionals, from primary care physicians to specialists, this updated fifth edition addresses the importance of considering lipoprotein particles, not just their lipids. The authors, renowned experts from the UK and USA, interpret clinical trial evidence in the context of pathogenesis and provide practical solutions to the routine problems encountered in the clinical management of hyperlipidemias. Contents: • Lipids and lipoproteins - structure and physiology • Epidemiology and pathophysiology • Familial (monogenic) hypercholesterolemia • Polygenic hypercholesterolemia and combined hyperlipidemia • Hypertriglyceridemia • Familial dysbetalipoproteinemia • Dyslipidemia in insulin resistance, the metabolic syndrome and diabetes mellitus • Secondary hyperlipidemia • Dietary treatment • Drug treatment • When to treat • Biochemical tests • Useful resources
