Midwives and Maternity Services in Greece - Historical Context and Current Challenges; 5. Reflections on Running an Evidence Course; 6. Evidence Based Practice and Problem Based Learning - a Natural Alliance?; 7. Supervision of Midwifery and Evidence Based Practice 8. Is There Enough Evidence to Meet the Expectations of a Changing Midwifery Agenda?9. Guidelines and the Consultant Midwife; 10. Unpicking the Rhetoric of Midwifery Practice; 11. The Potential of Service User Groups to Support Evidence Based Midwifery; 12. Evidence Based Midwifery; Appendix Writing Midwifery Evidence; Index |
| Sommario/riassunto      | Evidence based practice is now widely accepted as a fundamental tenet of midwifery. The importance of evidence in defining midwifery policy and practice in the UK health system, and others, is acknowledged and enduring. While the development and evaluation of research in midwifery is well charted, the question of how such evidence is incorporated into practice has, to date, received less attention and   |

discussion in the midwifery profession. Answering this need, Evidence Based Midwifery focuses on the dissemination and use of evidence for midwifery practice, and explores midwives' experiences i
