Sommario/riassunto	Therapeutic Strategies in Heart Failure is a pragmatic textbook written by active clinicians and investigators, focused on what the doctor needs to know to achieve the best possible outcome in patients with heart failure. The authors have incorporated all of the most recent definitive trial data, with frequent summary boxes and highlighted points of emphasis. The book begins with the prevention of heart failure, discusses best application of standard therapies, describes progress with current cutting edge treatments, and anticipates future therapeutic interventions. To complete the thought pro
