

1. Record Nr.	UNISA996339119503316
Titolo	Who's Buying Transportation
ISBN	1-4294-2770-1
Descrizione fisica	1 online resource (604 p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The eighth edition of American Attitudes: Who Thinks What about the Issues That Shape Our Lives coaxes the results of the latest (2012) General Social Survey out of the shadows of academia and makes them readily available for researchers who want to explore Americans' changing attitudes. In hundreds of tables, the eighthth edition of American Attitudes taps into the GSS gold mine, revealing what the public thinks about topics ranging from gay marriage to the American Dream, how Americans feel about their financial status, their hopes for their children, how often they socialize and with whom, their religious beliefs, political leanings, and standard of living. It shows those answers by the demographics that shape perspective--sex, age, race, Hispanic origin, education, and region. American Attitudes reveals 2012 attitudes by demographic characteristic, and for every 2012 question for which historical data are available, it shows the history of response all the way back to the first appearance of the question on the General Social Survey. American Attitudes provides the latest data and is an invaluable resource for historic trends. The eighth edition of American Attitudes is organized into nine chapters: Public Arena, Government and Politics, Science and Information, Religion, Work and Money, Family and Friends, Diversity, Personal Outlook, and Sexuality.</p>
