Sommario/riassunto	This text will help students understand fundamental aspects of clinical practice in order to provide safe and effective care to children and their families in various situations. When in clinical practice, students may find themselves being supervised from a distance, and as such, this text will help the student when they find themselves in a variety of settings to assist their integration of theory and practice. The reader will develop their paediatric caring skills with a sound knowledge base, which will underpin the safe and effective delivery of care.* User-friendly writing style*
