

1. Record Nr.	UNISA996339120703316
Autore	Hill Adam T.
Titolo	Pulmonary infection : an atlas of investigation and management // by Adam T. Hill, F. X. Emmanuel and W.H.B. Wallace
Pubbl/distr/stampa	©2013 Boca Raton, FL : , : CRC Press, an imprint of Taylor and Francis, , [2004]
ISBN	1-280-24005-9 9786610240050 1-84692-528-2 0-203-02493-1
Edizione	[First edition.]
Descrizione fisica	1 online resource (140 p.)
Collana	An Atlas of Investigation and Management
Disciplina	616.24
Soggetti	Lungs - Diseases Lungs - Infections
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Acknowledgements; Foreword; Abbreviations; 1. Community-Acquired Pneumonia; 2. Hospital-Acquired Pneumonia; 3. Pneumonia in the Severely Immunocompromised Patient; 4. Tuberculosis; 5. Chronic Obstructive Pulmonary Disease; 6. Bronchiectasis; 7. Miscellaneous Respiratory Infections; Index
Sommario/riassunto	Infections of the lung make up a significant proportion of the work of the respiratory and infectious disease physician. Drawing upon the illustrative resources of the Edinburgh Royal Infirmary, this beautifully presented atlas provides a visual approach to the topic. Dr Hill has selected a range of graphic images which will enable the user to see examples of both the rare and typical manifestations of these disorders. A visual guidebook to respiratory infection, rather than a text, Pulmonary Infection consists of a large number of illustrations and captions, thus enabling the user to visualize many different situations. It will therefore undoubtedly become a useful desk reference for both the busy practitioner and the trainee.
