Action research and reverse thinking for anti-desertification methods 47 4. Energy and the environment in Sub-Saharan Africa 91 5. Fishing for food and food for fish 125 6. Conclusion 167 Authors 181
Sommario/riassunto	Intercultural, interdisciplinary, and transdisciplinary research interfaces confront researchers with considerable challenges. Towards Shared Research portrays how scholars from different disciplinary and geographical origins and at various academic career stages strive for a more inclusive and better understanding of knowledge about African environments. The book is addressed to researchers, facilitators, and policy-makers to make a case for participatory and integrative approaches resulting in systemic and co-created analyses.
