Sommario/riassunto	Today, huge quantities of digital audiovisual resources are already available - everywhere and at any time - through Web portals, online archives and libraries, and video blogs. One central question with respect to this huge amount of audiovisual data is how they can be used in specific (social, pedagogical, etc.) contexts and what are their potential interest for target groups (communities, professionals, students, researchers, etc.). This book examines the question of the (creative) exploitation of digital audiovisual archives from a theoretical, methodological, technical and practical
