

1. Record Nr.	UNISA996383676303316
Autore	Clarke Thomas
Titolo	Meditations in my confinement, when my house was visited with the sickness [[electronic resource]] : in April, May and June, 1666, in which time I buried two children, and had three more of my family sick
Pubbl/distr/stampa	London, : Printed by W.G. for the use of the author, 1666
Descrizione fisica	[4], 20 p
Soggetti	Diseases Judgment of God
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	In verse. Dedication signed: Thomas Clarke. Reproduction of original in the British Library.
Sommario/riassunto	eebo-0018

2. Record Nr.	UNINA9910380731203321
Titolo	Zygomatic Implants : Optimization and Innovation / / James Chow, editor
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , [2020] ©2020
ISBN	3-030-29264-9
Descrizione fisica	1 online resource (vii, 233 pages) : 186 illustrations, 162 illustrations in color
Disciplina	617.693
Soggetti	Zygoma Dental implants Maxilla - Surgery Mouth - Surgery Dentistry Oral and Maxillofacial Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Preface -- Introduction -- Zygomatic implants after twenty years - Systematic Review and Global Perspective -- Biomechanics for Immediate Loading of the Zygomatic Implants -- Imaging for Zygomatic Implants -- Digital Workflow for Zygomatic Implants -- Extended Sinus Lift for Zygomatic Implants -- Zygoma Anatomy Guided Approach -- Static and Dynamic Guided Surgery in Zygomatic Implants -- Extramaxillary Zygomatic Implants -- Quad Zygoma -- Zygomatic Implants in Congenital Defects -- Zygomatic Implants in Oncology Patients -- Optimization and Innovation in Zygomatic Implants -- Zygoma Summit/Expert Discussion.
Sommario/riassunto	This book provides clinicians with state of the art information on the use of zygomatic implants to restore function and improve quality of life. International experts come together to showcase important innovations and advances in techniques that will assist in the optimization of outcomes. Readers will find information on indications,

biomechanics, the role of imaging, digital treatment planning, and all aspects of implant placement. Individual chapters are devoted to different procedures, including the extramaxillary surgical technique, extended sinus lift with retained bone window, the anatomy-guided approach, the quad zygoma technique, and static and dynamic guided surgery. The use of zygomatic implants specifically in oncology patients is also given detailed consideration. Today, the zygomatic approach offers many advantages for patients with severe maxillary resorption, in whom grafting was in the past unavoidable. In providing an up-to-date global perspective on the zygoma concept, this book will be an invaluable source of guidance for practitioners at all levels of experience. .
