#### Sommario/riassunto

Written with passion for anyone interested in seeing an end to the illegal trade in elephant ivory and rhino horn, this book shows how, by working together, people all over the world who care about these animals are gradually bringing about change for the better. It takes an overview of how the current situation came to pass by exploring poaching and its devastating consequences and the pivotal role of organized crime. The discussion of how matters are starting to improve covers the investigation and monitoring of ivory markets, sustainable uses and the key role of local communities. Enforcement of the law is vital in this story. Enter the enforcers, the technology they use to defeat the poachers and the evidence they require to prosecute offenders. Cases, some deeply shocking, are included, as well as a number of fascinating case studies, while the exploits of organized crime gangs make lively, as well as disturbing reading. Throughout the message is clear. We can and must save these animals from extinction.

Sommario/riassunto	This textbook covers all the material you need to pass the first part of the new City & Guilds 2357 Diploma in Electrotechnical Technology. Aligned with the 17th edition IEE Wiring Regulations, this new edition has been thoroughly updated to cover the 'performance' section of the latest 2357 course. Written in an accessible style and with a separate chapter for each unit, this book helps you to master each topic before moving on to the next. End of chapter revision questions help you to check your understanding and consolidate the key concepts learned in

each chapter
