Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Study Protocols and Informed Consent -- 2. Procedure - Additional Patient Explanation -- 3. Some Thoughts -- 4. Other Treatment Modalities.
Sommario/riassunto	This is a concise how-to of successfully treating previously poorly or untreatable neurologic conditions with stem cell therapies. The text examines the IRB approved protocols of NEST (Neurologic Bone Marrow Derived Stem Cell Treatment Study), SCiExVr (Stem Cell Spinal Cord Injury Exoskeleton and Virtual Reality Treatment Study), and ACIST (Alzheimer's and Cognitive Impairment Stem Cell Treatment Study). The discussion focuses on the protocols and informed consents and may be used as a template for specialists to develop clinical trials utilizing stem cell based therapy. Other potential noninvasive treatments for brain injury are also discussed. Neurologic Stem Cell Surgery, the sister text to the recently published Retinal and Optic Nerve Stem Cell Surgery, is an invaluable reference for all physicians with an interest in the development of stem cell based treatments.

3. Record Nr.	UNINA9910786906903321

Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Volume 1. What is life insurance?, what should you insure?, selling life insurance to the public -- Volume 2. Running a life insurance company -- Volume 3. Mortality and risk.
Sommario/riassunto	By the eve of the Great Depression, there existed in America the equivalent of a policy for every man, woman and child, and in Britain it grew from its narrow aristocratic base to cover all social classes. This primary resource collection is the first comparative history of British and American life insurance industries.
