Note generali	Includes index.
Nota di contenuto	Cover; Title; Copyright; Contents; Acknowledgements; Contributors; 1 What is the problem with feedback?; 2 Changing conceptions of feedback; 3 Resituating feedback from the reactive to the proactive; 4 The impact of emotions in feedback; 5 Socio-cultural considerations in feedback; 6 Trust and its role in facilitating dialogic feedback; 7 Written feedback What is it good for and how can we do it well?; 8 Feedback in the digital environment; 9 Feedback in clinical procedural skills simulations; 10 Implementing multisource feedback; 11 The role of peers in feedback processes 12 Utilising the voice of others The example of consumer-delivered feedback 13 Decision-making for feedback; Index
Sommario/riassunto	"Learners complain that they do not get enough feedback, and educators resent that although they put considerable time into generating feedback, students take little notice of it. Both parties agree

that it is very important. Feedback in Higher and Professional Education explores what needs to be done to make feedback more effective. It examines the problem of feedback and suggests that there is a lack of clarity and shared meaning about what it is and what constitutes doing it well. It argues that new ways of thinking about feedback are needed. There has been considerable development in research on feedback in recent years, but surprisingly little awareness of what needs to be done to improve it and good ideas are not translated into action. The book provides a multi-disciplinary and international account of the role of feedback in higher and professional education. It challenges three conventional assumptions about feedback in learning: - That feedback constitutes one-way flow of information from a knowledgeable person to a less knowledgeable person. - That the job of feedback is complete with the imparting of performance-related information. - That a generic model of best-practice feedback can be applied to all learners and all learning situations"--
