| Titolo | A second beacon fired by Scintilla [[electronic resource]] : with his humble information and joynt attestation to the truth of his brethrens former declaration & catalogue, that fired the first beacon. Wherein is remembred the former actings of the papists in their secret plots: and now discovering their wicked designes to set up, advance, and cunningly to usher in popery; by introducing pictures to the Holy Bible: and by sending many young gentlewomen beyond the seas to the nunnes. Also, shewing and setting forth the misery of the whole Company of Stationers: and holding out rather a desolation to religion then a reformation; as more at large appears both in our ministers and churches, in these sad times, when blasphemy, negromancy, popery, and all heresies be printed and publiquely sold, in a most horrid manner without controll or punishment |
