Note generali	One of several versions of an anonymous herbal probably of medieval origin; this is the version of STC 13175.15. The "W.C." applies to the short sections at the end, and probably refers to William Copland, who may have edited this edition as well. Printer's and publisher's name from colophon; publication date conjectured by STC. Signatures: A-K. A variant of the edition with colophon reading: Imprinted at London by Ihon Kynge, for Ihon Waley. Variant: colophon has "Abraham Vely". Identified as STC 4729 on UMI microfilm. Reproduction of the original in the Henry E. Huntington Library and Art Gallery.
