

1. Record Nr.	UNISA996384862703316
Autore	Hewit John <1614-1658.>
Titolo	Dr. Hewit's Letter to Dr. Wilde on Monday, June 7. 1658 [[electronic resource]] : being the day before he suffered death, and read by Dr. Wilde at his funeral
Pubbl/distr/stampa	[London, : s.n., 1658]
Descrizione fisica	1 sheet ([1] p.)
Soggetti	Broadsides - England Royalists - England - 17th century Executions and executioners - England Great Britain History Commonwealth and Protectorate, 1649-1660 Early works to 1800
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Signed: Your most affectionate friend, brother and servant in Christ Jesus, John Hewit. Dated at end: Tower, June 7. 1658. Morning 7 a clock. Annotation on Thomason copy: "June 9". Reproduction of original in the British Library.
Sommario/riassunto	eebo-0018

2. Record Nr.	UNISA996280328703316
Titolo	2017 6th International Conference on Agro-Geoinformatics : 7-10 August 2017, Fairfax, Virginia, USA / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, New Jersey : , : IEEE, , 2017
ISBN	1-5386-3884-3
Descrizione fisica	1 online resource (423 pages) : illustrations
Disciplina	338.10285
Soggetti	Agricultural informatics Agriculture - Geographic information systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Agro geoinformation, the agricultural related geo information, is the key information in the agricultural decision making and policy formulation process. The Agro Geoinformatics, a branch of geoinformatics, is the science and technology about handling digital agro geoinformation, such as collecting (mainly through remote sensing and field investigation), processing, storing, archiving, preservation, retrieving, transmitting, accessing, visualization, analyzing, synthesizing, presenting, and disseminating agro geoinformation. Recent advances in geoinformatics have created new opportunities and challenges in applying agro geoinformatics to agriculture monitoring, assessment, and decision making. This International Conference on Agro Geoinformatics is a major venue for professionals and students to exchange ideas, research results, professional experiences, and future vision in the fields of geoinformation science, remote sensing, and their applications in agriculture.</p>
