Note generali	Signed and dated at end: Oxonii An. 1677. 12.Aug. Schemate hos relinquere voluit M.E. Rotherus, Dantisc. Oxonio Cantabrigiam abiens. A memorial leaf with verses offered by "M.E. Rotherus" of Dantzig, when leaving Oxford for Cambridge, Aug. 12. 1677, to his friend Paul Brand, court physician to Ernest Gulnther duke of Schleswig and Holstein, on Brand's leaving Oxford for Leyden. The four lines of verse are praise of the Sheldonian as a building, and some sort of a single grammatical sentence seems to be built up by all the rest of the printed matter. -- Madan. Reproduction of original in the Bodleian Library.
