Sommario/riassunto	A comprehensive introduction to the important economic, social and

political processes and development issues in this extremely popular region. The Central American nations and those of the Caribbean (including Guyana, Surinam and French Guiana on the mainland) share many historical processes as well as experiencing similar development problems today. These include European colonialism, structural adjustment, small size, reliance on primary production, influence of the United States and moves towards democratisation. While Mexico is obviously a much larger country in area, economy and populati
