UNISA996386240703316

## Titolo

The secrets of physick and philosophy [[electronic resource]] : divided into two booke: in the first is shewed the true and perfect order to distill, or draw forth the oyles of all manner of gummes, spices, seedes, roots, and hearbs, with their perfect taste, smell and vertues. In the second is shewed the true and perfect order to prepare, calcine, sublime, and dissolve all manner of minerals, and how ye shall draw forth their oyles and salts, which are most wonderfull in their operations, for the health of mans bodie. First written in the German tongue by the most learned Theophrastus Paraselsus, and now published in the English tongue, by Iohn Hester, practitioner in the art of distillation
