

1. Record Nr.	UNISA996386271003316
Autore	Salmon William <1644-1713.>
Titolo	A rebuke to the authors of a blew-book call'd, The state of physick in London [[electronic resource]] : which is indeed the black and blew state of physick, dated from the college, and signed by Th. G. and R.M. // written in behalf of the apothecaries and chirurgians of the city of London by William Salmon .
Pubbl/distr/stampa	London, : Printed and sold by E. Whitlock ..., 1698
Descrizione fisica	32 p
Soggetti	Medicine Medicine - England - London
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Reproduction of original in Cushing Collection, Yale University Medical School Library.
Sommario/riassunto	eebo-0033

2. Record Nr.	UNINA9911006887503321
Autore	Swartzlander Earl E., Jr., <1945->
Titolo	Computer arithmetic : Volume II
Pubbl/distr/stampa	[Place of publication not identified], : World Scientific Publishing, 2014
ISBN	1-68015-849-X 981-4641-47-2
Edizione	[New ed.]
Descrizione fisica	1 online resource (xxxviii, 446 p.) : ill
Disciplina	005.1
Soggetti	Computer programming Floating-point arithmetic Computer arithmetic Engineering & Applied Sciences Computer Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 419-446).
Sommario/riassunto	"This is the new edition of the classic book Computer Arithmetic in three volumes published originally in 1990 by IEEE Computer Society Press. As in the original, the book contains many classic papers treating advanced concepts in computer arithmetic, which is very suitable as stand-alone textbooks or complementary materials to textbooks on computer arithmetic for graduate students and research professionals interested in the field. Told in the words of the initial developers, this book conveys the excitement of the creators, and the implementations provide insight into the details necessary to realize real chips. This second volume presents topics on error tolerant arithmetic, digit on-line arithmetic, number systems, and now in this new edition, a topic on implementations of arithmetic operations, all wrapped with an updated overview and a new introduction for each chapter."--
